32 weeks	16 weeks	8-12 plants / m ² in 14cm pots	20 - 50 cm	14-22 cm		12-22 cm	

Aug. / Sept. Oct / Nov. Dec. / Mar.

Description:

- Pastel colours, 50% purple and 50% magenta, the dominant colour is white with a light hue
- In cold greenhouse or in winter the top of the petals colour with a beautiful hue
- The temperature influences the intensity of the colour.
Warm: very light colour, nearly white. Cold: more intense colour.
Ideal between 16 and 20°C (61 and 68°F)
- In a Southern European climate type, sales begin at the end of October
- Suitable for culture in colder conditions > 12°C.
- Very compact plant structure, silverleaf

Advice: avoid sudden variations in humidity to prevent burning of petal tips
